submit application to pay impact fees and provide access to a water connection to my Lot # ___ Plat ___ in the Indian Ridge Subdivision as recorded on the official plats on file at the Records Office in Sanpete County, Utah.

The individual water connection will be installed in compliance with all Sanpete County and Utah State Regulations for a public water system. I understand that availability may be subject to proximity to existing main water line (generally within 300 feet) and available sources and storage as required by Utah State regulations. This connection includes a 3/4 inch water meter but no title to water rights, storage tanks, in-line systems or water source which are sole property of the IRWCD.

The system will provide service identified as year around recreational residential service for indoor use only. As a recreational service the system must be closed down for a brief period of time each year. That time period to be determined by IRWCD.

I understand that IRWCD does not provide the connection for any pipeline or hydrant from the meter to the lot. I understand that I am responsible for the connection installation and insure that it is done in accordance with specifications provided by the IRWCD. I agree that I will be charged an inspection fee of \$100 if the installation is not provided by the IRWCD.

I understand that I must install an approved pressure regulator valve to be located in any dwelling in which fixtures are installed.

Service and usage fees begin at such time as main line is connected to lot. The present fees are \$205.00 per year plus \$2.00 per thousand gallons used. The fees are subject to change at any time.

I agree to pay all amounts due within thirty (30) days of billing date. A late fee may be assessed on past due accounts plus interest at the rate of 1.5% per month. I further agree to pay all legal fees, collection costs and other costs incurred by IRWCD if needed to collect past due amounts.
